

**SISTEME ECOLOGICE PENTRU UZ CIVIL**

## Panou Eco

Produs dintr-un panou biologic, izolan, termoacustic din fibra de cocos, cu suprafata tratata prin procedee naturale de uscare, fara a fi utilizate produse chimice.

Este indicat pentru gradul scazut de propagare a vibratiilor si pentru buna izolare impotriva patrunderii aerului (scade nivelul de zgomot sub 22/24 dB).

Made of a coconut fibre sound-deadening insulating panel, extracted from coconut external skin through a complete natural drying process free from chemical products. Specific protection from percussion diffusion and trampling (noise trampling fading out of 22/24 dB).

Cod	Densitate kg/m <sup>3</sup>	A mm	B mm	H mm	Ambalaj m <sup>2</sup>	Pret eur/m <sup>2</sup>

## Folie antiumiditate

Produs ecologic, din celuloza Kraft de 5 , de gramaj 150g, in suluri cu lungime 120 m si latime 1 m, impermeabila pe ambele parti, utilizata ca si protectie impotriva actiunii apei.

Basic weight of 150 g in 5 cellulose Kraft, ecological manufactured in rolls 120 m length and 1 m width, water repellent on both sides, to be used as a humidity barrier.

## Colector COMBYTERM® pentru tub Ø17

Colector modular din otel prelucrat la cald conform normelor ST UNI EN 12165 CW617N dotat cu robineti si detentori de regolare; adaptatori pentru tub 17x2 mm; robineti de umplere/ golire; robineti de aerisire; suportii si termometre. Sisteme de prindere cu diametre de 1" F.

Modular manifold manufactured from hot-pressed brass ST UNI EN 12165 CW617N complete with regulated valves and holders; adapters for 17x2 mm piping taps for filling and emptying air vent valves; support brackets and thermometers. Connections for 1" F diameter.

## Tub POLYSUPER®

Produs conform normelor DIN 4726/4792 cu diametru de 17 x 2 mm din polietilena PE-Xc, stabilizata, reticulata prin iradiere cu fascicul de electroni cu energie ridicata, prevazut cu o pelicula speciala antioxidanta din EVOH.

PE-Xc polyethylene pipe manufactured according to DIN 4726/4792, in the size of 17x2 mm, electron-beam crosslinked and superficially provided by a special anti-oxygen EVOH film.

10 40 10	17 ÷ 20	50	1	2,20

**Banda perimetrala de dilatare ecologica**

>> Nuovo prodotto

Prodotto din fibra de canepa naturala (Euroclasa B2 de reactie la foc), fara lianti chimici sau alte materiale suplimentare nocive pentru mediul ambiental, e un produs complet ecologic. Pe langa gradul optim de izolare termoacustica, este folosita ca si banda perimetrala de dilatare.

Made of natural hemp fibre (Euroclass B2 fire reaction), free from binders and any other additional material which could be harmful for the environment. It is an ecological product with high sound-deadening insulation properties, it used as an edge perimetric strip.

### Caseta pentru colector

Produsa din otel P01 vopsit la cald, prevazuta cu rama, suporti distantieri reglabili si usa frontala cu maner.  
**Caseta este furnizata cu un panou din policarbonat pentru protejarea colectorului din interiorul sau, impotriva ddiverselor actiuni ale peretelui.**

Manufactured from P01 steel warm-painted furnished with frame, adjustable spacer support and front door with lock.  
**The manifold box is supplied with a polycarbonate shaped panel to protect the manifold in it against further wall mansory operations.**

### Plasa anticontractie din fibra

Plasa robusta din tesatura monolitica, anticontractie, flexibila, realizata din fibre alcaline. Resistenta, pretensionata si impregnata cu rasina din poliester cu orificii patrate 99x99 mm (grosimea medie a plasei 3,5 mm) cu rezistenta chimica si mecanica ridicata. Fara emisii nocive pentru sanatatea omului, poate fi utilizata in constructiile civile in locul retelei metalice sudate electric. Nu interactioneaza cu campul magnetic natural datorita caracteristicilor sale antimagnetice.

Solid and antishrinkage monolithic and flexible net in alkaline glass fibre, pre-tensioned resistant and soaked with high mechanical and chemical resistance polyester resin of a 99x99 mm squared mesh ( 3.5 mm average mesh thickness ). Free from dangerous compounds which could be harmful for the human beings, it can be used in ecobuilding, as a substitute of the arc - welded wire net. It does not interfere to any magnetic field thanks to its non magnetic properties.
